

Medical Toxicology Research Center MTRC

Medical toxicology research center (MTRC) was founded in October 2007 in School of Medicine, Mashhad University of Medical Sciences.

MTRC is a research center with qualified experts in basic and clinical research capabilities, including two professors (one full-time) with remarkable profile of publications at national and international levels. This made a strong reputation for the center.

MTRC has close cooperation with universal and continental organizations, including World Health Organization (WHO), International Society of Environmental and Occupational Toxicology and Pharmacology (ISEOTOX), and Asia Pacific Association of Medical Toxicology (APAMT). It has also joint research projects with these organizations.

The center, owns a specialized library and laboratories, has close cooperation with poisoning treatment centers in Iran and Asian countries. It has also effective role for upgrading the center's international affiliation.
